

**ASSURANCE HEALTHCARE SERVICES LLC**

***“Sharing Our Abilities”***

## Assurance Healthcare Services LLC

Assurance Healthcare Services LLC is a community-based service that will provide Individualized services to people with intellectual and/or physical disabilities in our residential Group Homes, or in the comfort of your own Home. We provide each person in our program with the support they need to be successful in the choices they make, both in where they choose to live and in the type of activities or work they choose to do, to attain healthier and happier community integrated lifestyles.

Our approach is completely person-centered and will involve hands-on support, habilitation and training in ADLs, personal care tasks and understanding the use of community resources. We believe that, “Most people will get over most things if they put their minds to it; you just have to give them an interest.” (Terry Pratchett)
